

JAMAICA  
Stamps of Great Britain used in the Jamaica Post Towns

There now follows a list of numerals that were used together with towns to which they were allocated. All information has been taken from 'JAMAICA' by Thomas Foster and his table of rarity is as follows

- U = Unique
- VR = Very Rare: Up to 10 known with the number recorded following. A + sign after the rating indicates that others are believed to exist.
- R = Rare: Not more than 20 exist.
- S = Scarce: Not more than 50 exist.

		<b>Obliterators on the Crown Colony Issues</b> As with the G.B. 'used in' section, postmarks are listed chronologically. Where numbers 'recorded' are quoted these have been taken from information collated by the owner over many years. Although others may exist the information quoted gives a very good guide to rarity. Most of the lots offered are on their original album pages, which are beautifully written– up with much information relating to the use of cancels with dates, etc. Where the same obliterator was used by different offices this is mentioned in lot descriptions.
