Timbre Post / LP		London Philatelist Jan 1892: Jamaica Postal Notices By E. H. Bacon. The HE number of the Timbre-Poste for November last, contains a review of the Philatelic Society's recently published work on the stamps of the British West Indies. The Editor of that Journal is recognised all over the world, and justly so, as one of the greatest authorities upon all things appertaining to the science of Philately, and our Society may well be proud of the highly eulogistic terms in which he speaks of our latest catalogue. The review is specially interesting, as the writer gives translations in extenso of four important Jamaica postal notices, which are not found in my "Preliminary Notes" at the head of the Colony. As I stated at page 89 of the catalogue, the only file of the Jamaica Official Gazette I could find in this country, commences with the number for June 3rd 1869, consequently I was unable to furnish any notices of an earlier date than this, from that source. Three of the notices translated by Mons. Moens were published previous to the year 1869, while the fourth, which is dated 1st April, 1879, for some reason or other did not appear in the Official Gazette, although it was published in, at any rate, one, if not more, of the local newspapers. Mons. Moens, in reply to a request I made him, has kindly sent me the original copies of the notices he received from Jamaica, which I now reproduce here for the benefit of those collectors who may not have seen the number of the Timbre-Poste. I have drawn attention to.

	Extract	7. In connection with the falling off in the revenue from "Postages" I would also add that on the 1st May last the "scale of progression" on Inland Letters exceeding one ounce in weight was altered and made to be by the single rate of half an ounce rather than by the double rate of one ounce. This alteration was made under the terms of the "Post Office Law Amendment Law of 1886," which also altered the surcharges on wholly unpaid and insufficiently prepaid correspondence, to the extent of making any Inland Letter, Newspaper or Book-packet liable, if wholly unpaid, to double the ordinary rate of postage, and, if partially prepaid, to double the amount of the deficient postage.

		15. A temporary Post Office, the transactions of which were limited to the Sale of Stamps and the receiving of letters, was opened at a building in Barry Street, Kingston, in connection with the Jamaica Philatelic Society's Exhibition from 21st to 26th February, 1927.	
		16. On the 28th of March the postal service on the trains, which had been withdrawn, was resumed. Messengers are placed on the outgoing and incoming Montego Bay and Port Antonio trains who sell Stamps, distribute to Post Offices the mail matter posted in collecting boxes on the trains and clear Letter Boxes erected at each railway stations on the lines. -- Judging from the number of letters circulated through this medium it would appear that this service is of some benefit to the public.	
		17. The Post Office at Red Hills (St. Andrew) was temporarily and unavoidably closed on 3rd of January, but was re-opened on the 10th of May.	
		76 Street Letter Boxes erected at: Beechwood Ave- Halfway Tree Road; Pen Street-Rodney Street (Rodney Town); Spanish Town Road-Old Pound Road.
